

Pulsar Audio Cable, 10AWG, 2C, 105 Strands, PVC Jacket

Product Part Number

N82.102EPV5W(R)

Product Description

The Pulsar Audio Cable, 10AWG, 2C, 105 Strands, PVC Jacket is a high-performance audio cable designed for superior signal transmission and durability. With 105 finely stranded conductors, it ensures maximum flexibility and reduced signal loss. The robust PVC jacket provides excellent protection for indoor installations, making it ideal for professional audio systems, speakers, and amplifiers.

Product Features

- High Conductivity: 105 finely stranded 10AWG conductors ensure superior signal transmission and minimal resistance.
- Flexibility: Stranded construction allows for easy handling and installation, even in tight or complex routing scenarios.
- Enhanced Signal Integrity: Reduces the risk of signal loss and interference, delivering clear and reliable audio quality.
- Durable PVC Jacket: Provides robust protection against wear, moisture, and environmental factors for long-lasting performance.
- Versatile Application: Suitable for professional audio systems, speakers, amplifiers, and other low-voltage applications.

Material Specifications

Conductor	Material	BC (Bare Copper)
	Conductor Construction (mm)	2C x10AWG 105 Strand
Insulation	Material	PVC
	Diameter (mm)	4.0 ± 0.1
	Average Thickness (mm)	0.50
	Color	Black, Red
Rip-cord	Yes	
Jacket	Material	PVC
	Diameter (mm	9.30 ± 0.5
	Average Thickness (mm)	0.65
	Color	White
Electrical & Physical Characteristics:	Conductor DCR 20°C	€3.41 Ω/KM
	Max. Operating Voltage	300V RMS

Environmental Specifications

Temperature range	Storage & shipping	-20°C to 70°C
	Installation	0°C to 60°C
	Operation	-20°C to 70°C

Ordering Information
