

AlignFlow Horizontal Cable Manager, 19" 0.5U, with 5 Vertical Rings

Product Part Number

N421.1905V5B

Product Description

The AlignFlow Horizontal Cable Manager is a compact and efficient cable organization solution designed for 19-inch racks. Its 0.5U height and five vertical rings provide optimal cable management while saving valuable rack space. The design ensures durability and a professional look in data center environments.

Product Features

- **Space-Efficient Design** : Compact 0.5U height to maximize rack utilization while maintaining organized cable layouts.
- **Five Vertical Rings** : Strategically placed rings offer superior cable routing and management for structured cabling systems.
- **Durable Construction** : Made from high-quality materials (UL 1863 safety listed) for enhanced durability and a long service life in demanding environments.
- **EIA 19-Inch Rack Compatibility** : Standardized dimensions ensure seamless integration with all 19-inch server racks and enclosures.
- **Professional Finish** : Smooth surface and design for an aesthetic appeal and resistance to wear and tear.

AlignFlow Horizontal Cable Manager, 19" 0.5U, with 5 Vertical Rings
