

# AlignFlow Horizontal Cable Manager, 19" 1U, with 4 Vertical Rings, 2 Side Horizontal Rings, and 2 Cable Entry Holes

## Product Part Number

N421.191V4H2CE2B

## Product Description

The AlignFlow Horizontal Cable Manager is a versatile 1U solution for efficient cable management in 19-inch racks. With four vertical rings, two side horizontal rings, and two cable entry holes, it offers enhanced flexibility for organizing and routing cables. This design ensures a clean and accessible setup while maximizing rack space and improving overall cable organization.

## Product Features

- Compact 1U Design : Space-efficient, ensuring organized cable management without occupying excessive rack space.
- UL 1863 Safety Listed : Certified to comply with safety standards for communication circuit accessories.
- Meets EIA-310-E Standards : Designed to fit seamlessly into all standard 19-inch racks, ensuring compatibility and easy installation.
- 16-Gauge Cold-Rolled Steel Construction : Built from durable, high-quality steel for superior strength and long-term use.
- Four Vertical Rings & 2 Side Horizontal Rings : Provides a structured cable routing system to keep cables organized and reduce clutter.
- Two Cable Entry Holes : Allows flexible cable entry from multiple directions for improved accessibility.
