

AlignFlow Horizontal Cable Manager, 19" 2U, with 4 Vertical Rings, 4 Side Horizontal Rings and 2 Cable Entry Holes

Product Part Number

N421.192V4H4CE2B

Product Description

The AlignFlow Horizontal Cable Manager, 19" 2U, is designed to offer efficient and organized cable management for high-density environments. With four vertical rings, four side horizontal rings, and two cable entry holes, it provides maximum flexibility for routing cables. This 2U manager ensures a clean, secure, and accessible setup, optimizing both rack space and cable organization in 19-inch racks.

Product Features

- **2U Design** : Provides more space for organizing larger cable volumes in 19-inch racks.
- **UL 1863 Safety Listed** : Certified to comply with safety standards for communication circuit accessories.
- **Meets EIA-310-E Standards** : Designed to fit seamlessly into all standard 19-inch racks, ensuring compatibility and easy installation.
- **16-Gauge Cold-Rolled Steel Construction** : Built from durable, high-quality steel for superior strength and long-term use.
- **4 Vertical Rings & 4 Side Horizontal Rings** : Provides a structured cable routing system to keep cables organized and reduce clutter.
- **Two Cable Entry Holes** : Allows flexible cable entry from multiple directions, enhancing accessibility and organization.
