

Galixis Wire Mesh Cable Tray, G Type W100mm x H100mm, Length: 3m, Wire Dia: 5mm

Product Part Number

N412.G101035A

Product Description

The Galixis Wire Mesh Cable Tray is an advanced cable management system designed for optimal organization and durability. Featuring a G-shaped structure with a width of 100mm and height of 100mm, it provides excellent ventilation and heat dissipation for efficient cable routing. Made from high-quality carbon steel (Q235B) with EZ plating for superior corrosion resistance, this cable tray offers long-lasting strength and easy maintenance, making it perfect for both industrial and commercial installations.

Product Features

- Good Ventilation and Heat Dissipation : Open design prevents cable overheating.
- On-Site Fittings Fabrication : Easily customizable for unique installations.
- Easy to Install : Simplified assembly with minimal effort.
- Visual Cable Management : Open-wire structure allows clear visibility of cables for organization and troubleshooting.
- Maximum Load Under Minimum Weight : Strong yet lightweight for versatile use.
- Convenient Maintenance : Easy access for cable adjustments or repairs.

Galixis Wire Mesh Cable Tray, G Type W100mm x H100mm, Length: 3m, Wire Dia: 5mm
