

# Galixis Wall T-Bracket, for Wire Mesh Cable Tray

## Product Part Number

N412.WTBxA

## Product Description

The Galixis Wall T-Bracket is a robust and versatile mounting solution for wire mesh cable trays. Made of durable Carbon Steel with EZ plating, this bracket is designed for wall mounting with expansion bolts. It provides optimal spacing between the wall and cable tray while supporting multi-storey bridge construction.

## Product Features

- **Premium Material** : Constructed from Carbon Steel with EZ plating for enhanced durability and corrosion resistance.
- **Versatile Application**: Ideal for securely mounting wire mesh cable trays to walls.
- **Adjustable Design** : Ensures proper distance between the wall and the cable tray for efficient cable management.
- **Multi-Storey Support** : Can be used to construct multi-level cable tray bridges for complex installations.
- **Perfect Fit** : The arm length matches the width of the wire tray, providing a snug and secure fit
