

StarTrail Fiber Raceway, 90° Horizontal Elbow Cover for 600mm Duct (PVC)

Product Part Number

N411.90HEC6P

Product Description

The StarTrail Fiber Raceway 90° Horizontal Elbow Cover is designed to securely enclose and protect fiber optic cables in a 90° horizontal bend. Made from durable PVC, this cover ensures cable safety and organization in high-density installations. It seamlessly attaches to 600mm duct sections, providing a secure and clean pathway for fiber cables while maintaining structural integrity and minimizing exposure to external elements.

Product Features

- **Protective Elbow Cover** : Safeguards cables by enclosing 90° horizontal bends, preventing damage and maintaining cable integrity.
- **Durable PVC Material** : Made from robust PVC for enhanced protection against environmental factors and wear.
- **Seamless Integration** : Attaches easily to 600mm duct sections, creating a secure and continuous pathway for fiber optic cables.
- **Flame Retardant** : Built with flame-resistant properties to meet safety standards and protect your infrastructure.
- **Simple Installation** : Designed for quick and easy installation, making it ideal for efficient cable management setups.
