

# StarTrail Fiber Raceway, Plastic Round Head Bolt, M5x15 (Plastic + Metal)

## Product Part Number

N411.PRHBM515

## Product Description

The StarTrail Fiber Raceway Plastic Round Head Bolt (M5x15) is a reliable fastening solution designed for fiber raceway systems. Combining durable plastic and metal materials, this bolt ensures strong connections while minimizing cable damage. Its lightweight and corrosion-resistant design make it ideal for use in data centers and telecommunications environments.

## Product Features

- **Durable Construction** : Features a combination of plastic and metal for strength and longevity.
- **Optimized for Fiber Raceway Systems** : Designed for secure connections without compromising cable integrity.
- **Corrosion Resistance** : Withstands harsh conditions, ensuring lasting performance.
- **Precision Fit** : M5x15 size provides compatibility with various fiber raceway components.
- **Lightweight Design** : Ensures easy handling and installation in complex setups.
