

# NovalIndus IP68 Industrial Box, 3 Port (Stainless Steel Cover /Fire-Retardant Backbox)

## Product Part Number

N617.3PSS

## Product Description

The NovalIndus IP68 Industrial Box is a robust, 3-port solution designed for demanding environments. It combines a durable stainless steel cover for superior corrosion resistance and waterproof performance with a fire-retardant plastic backbox for enhanced safety. The offered cable inserts accommodate cables with an outer diameter (OD) of 4.5mm to 7.8mm, ensuring versatility and secure connections. Engineered to meet stringent safety and performance standards, this box is ideal for industrial applications requiring reliable connectivity and protection.

## Product Features

- IP68 Certified : Dust-tight and waterproof for use in harsh environments.
- Corrosion-Resistant Stainless Steel Cover : Provides long-lasting durability and protection against rust.
- Fire-Retardant Backbox : Constructed from UL94V-0 rated plastic for superior fire resistance.
- Flexible Cable Compatibility : Includes inserts for cables with OD 4.5mm to 7.8mm.
- Safety Assured : UL 1863 Safety Listed
- Versatile Installation : Compact design suitable for diverse industrial applications.

# NovalIndus IP68 Industrial Box, 3 Port (Stainless Steel Cover /Fire-Retardant Backbox)

## Material Specifications

Material	Stainless Steel (Cover), FR Plastic (Backbox)
Port Configuration	Three Port
Ingress Protection	IP68 Certified
Fire Resistance	UL94V-0 Rated
Cable Compatibility	OD 4.5mm to 7.8mm
Cable Entry	Three cable inserts and two filler included

## Environmental Specifications

Operating Temperature Range	-25°C to 70°C
Installation Temperature Range	-5°C to 40°C
Storage Temperature Range	-25°C to 70°C
