

Northern Link® Stellar 19" 24-port Copper Patch Panel Unloaded 1U, with Plastic Rear Cable Manager

Product Part Number

N04.S24UL1BBK

Product Description

Northern Link® Stellar 24-Port Patch Panels, designed to deliver exceptional performance and provide a versatile range of installation choices. These patch panels leverage the outstanding capabilities of the Northern Link Snap-in Keystone Jack, ensuring top-tier connectivity. Notably user-friendly, they simplify termination processes, facilitate efficient cable management, and conveniently mount to EIA standard 19-inch racks. Additionally, the rear cable manager expertly guides cables to their termination points, ensuring an organized and efficient network setup.

Product Features

- 19" Rack Mountable type
- Utilizes 1U Rack Space
